6. HANDLING AND STORAGE:

Handling:	To avoid the possibility of injury, extreme caution must be taken when handling / using this product. This product is abrasive and has sharp cutting edges. The wearing of impervious gloves is advised when handling this product. Do not tear the product use a suitable cutting tool such as scissors. Due to the nature of the production the product can occasionally contain extra heavy strands of sharp wire material along with coarser and finer grades of wool.
Storage/Shelf Life:	Keep dry and away from any source of electrical current or naked flame. Shelf life indefinite dependant on storage conditions.

7. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure/Personal	Wear safety glasses at all times.
Protective Equipment:	Wear impervious gloves due to this product having sharp cutting edges. Never tear this
	product. Wear suitable dust masks as finer grades of Wire Wool products may produce
	airborne dust particles.

8. STABILITY AND REACTIVITY

Stability:	Damp or wet conditions will cause the product to deteriorate. However, if stored in the
	outer carton minor changes in atmospheric conditions will be absorbed by the carton.

9. TRANSPORT

This product is NOT classified as dangerous for transporting providing that it is packaged a suitable outer carton.

<u>11. REGULATORY INFORMATION</u>

The data and advice given apply when the product is sold for the stated application or applications. The product is not sold as suitable for any other application. Use of the product for applications other than as stated in this sheet may give rise to risks not mentioned in this sheet. You should not use the product other than for the stated applications without seeking advice from us.

If you have purchased the product for supply to a third party for use, it is your duty to take all necessary steps to ensure that any person handling or using the product is provided with the information in this sheet.

If you are an employer, it is your duty to tell your employees and others who may be affected of any hazards described in this sheet and of any precautions which should be taken.

DISCLAIMER

This information relates only to the specific material designated and may not be valid for such material used in combination with any other material or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
