

BOSS™

BSS

985 DZR BRASS

BALL VALVES

Available in sizes from 15mm to 50mm, the BOSS™ 985 DZR brass ball valve is ideal for use on mains fed and indirect cold water systems, vented and unvented hot water systems as well as vented and sealed central heating systems.

Fully WRAS approved for use on hot and cold water.

Note: for chilled water applications a BOSS™ 965 NREXT valve should be used instead.
