

3rd party Cookies

Third-party cookies are owned and created by an independent company, usually a company providing a service to the owners of the website. We do have relationships with third parties who may also set cookies during your visit to our website to be used for remarketing purposes - in other words to show you different products and services based on what you appear to be interested in. We don't control the setting of these cookies, so we suggest you check the third-party websites for more information about their cookies and how to manage them.

If you'd like to opt out, please go to the [Network Advertising Initiative website](#) (please note that we're not responsible for the content of external websites).

Category	Cookie Name	Domain	Comments
Targetting	JSESSIONID	dp2.specificclick.net	Advertising network
Performance	id	.doubleclick.net	Tracking
Targetting	AA002	.atdmt.com	Advertising network
Targetting	MUID	.atdmt.com	Advertising network
Targetting	ug	.adviva.net	Advertising network

Functionality	uvc	.addthis.com	Sharing Network
Functionality	uit	.addthis.com	Sharing Network
Functionality	psc	.addthis.com	Sharing Network
Functionality	bt	.addthis.com	Sharing Network
Functionality	dt	.addthis.com	Sharing Network
Functionality	di	.addthis.com	Sharing Network
Performance	cp_session	support.talktalkbusiness.co.uk	Store session specific user data including

			session ID, answers viewed, number of searches, previously viewed answers, previous searches, previously seen e-mail. Disabling the cookie will result in some features such as 'previously viewed answers will not be populated.
Strictly Necessary	cp_profile	support.talktalkbusiness.co.uk	User profile token so that the server can identify a user. Disabling the cookie will result in user being unable to login.
Strictly Necessary	cp_login_start	support.talktalkbusiness.co.uk	Temporary cookie to check if cookies are enabled. Disabling the cookie will result in user being unable to login.
Strictly Necessary	oauth_token	support.talktalkbusiness.co.uk	Used as an authentication token when users use oauth login. Disabling the cookie will result in user being unable to login with oauth.
Strictly Necessary	rnw_ma_login	support.talktalkbusiness.co.uk	Recognize user who has filled out a prior marketing form so that a subsequent form can be pre-filled with known information. Disabling the cookie means that Forms will not be pre-filled, and Forms requiring login will not be available.
Functionality	rnw_survey_login	support.talktalkbusiness.co.uk	Keeps track of the last page that a user has submitted in a survey. If the user closes their browser and later clicks the survey link they will be taken to the page where they left off. Disabling the cookie means if user has submitted part of a survey and then click the survey link again they will be forced to start at the beginning of the survey, as opposed to starting where they left off.
Performance	LivePersonID	liveperson.com	Contains the LivePerson VisitorID.
Performance	HumanClickKEY	liveperson.com	Sets the session key of a visit.

Performance	HumanClickACTIVE	liveperson.com	Chat acceptance cookie.
Performance	HumanClickCHATKEY	liveperson.com	Unique key to identify each chat session.
Targetting	ELOQUA	eloqua.com	Visitor Tracking
Targetting	ELQSTATUS	eloqua.com	Confirm permission to recognise visitor and track activity
