

Dear Jerry Family,

Access to clean water is now a reality for thousands of people in Rwanda! On behalf of everyone at charity: water, thank you. Your Water Project Sponsorship in 2020 helped fund this work, and I'm excited to tell you more about your impact.

First, 100% of your generous donation funded 1 Piped System Tap Stand in the Gicumbi District.

Your donation was included in the \$2,750,000 granted to Water For People (WFP) Rwanda, which ultimately funded 243 water projects and served 86,075 people total.

As you look through the following pages and consider the impact of your generosity, I'd love to invite you to pause and picture all of the men, women, and children who finally have access to life's most basic need. Some people have waited their entire lives for this moment, and you helped make it possible.

I also want to take the time to recognize our local partner, WFP Rwanda. Thanks to their hard work and collaboration with Rwanda's government, they have brought clean and safe water to hundreds of communities. One local leader, Jean, shared that he never thought he'd see clean water flowing in his community. "This is a source of happiness and pride," he told WFP Rwanda as he filled his Jerry Can. "Our role now is to ensure that our children and great-grandchildren will have the chance to use clean water. This is a shared responsibility, and we are committed to that."

I am honored to oversee our partnership, implementation strategy, and commitments in Rwanda. As a Water Programs Senior Manager, I get to witness the life-changing impact of clean water every day. It brings health to communities once weakened by disease, gives children access to the education they deserve, and restores everyone's hope in the future through economic empowerment.

Your kindness is rewriting stories for people like Jean in Rwanda. Thank you so much.

Sincerely,

Michaela Walsh
Water Programs Senior Manager, charity: water
