

YLUPCYCLE

Use up, save up and
change the future!

Green Trident commits to helping communities & companies handle and sort their household solid waste for proper disposal. They partner with companies that upcycle and recycle scraps into new and usable products.

Scraps with a Purpose

Recycled materials are created into bond papers, boards, and even poly boards for the construction of houses in underprivileged communities.

SAVE UP AND DROP OFF

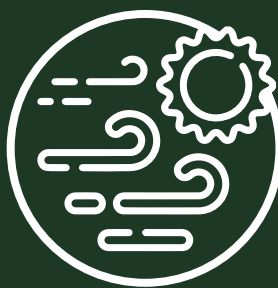

Only NingXia Red bottles, NingXia Red Single sachets, and Thieves plastic containers are accepted. All materials must be properly cleaned and dried before putting them inside our collection box.

WASH

CLEAN

DRY

DROP

Experience Center collection is open every 2nd and 3rd Fridays of the month only.
