BLOOM by Young Living™ Brightening Essence: Your skin's new best friend – BLOOM by Young Living™ Brightening Essence is a luminous essence that infuses moisture into skin, refining look and texture. Featuring ethically sourced mica to instantly illuminate the skin and give a radiant glow, its non-stripping and pH balance-restoring formula leaves your skin refreshed and hydrated.

BLOOM by Young Living™ Brightening Cleanser: Gentle on skin, BLOOM by Young Living™ Brightening Cleanser is a naturally derived facial wash that reveals radiant skin and leaves your face feeling fresh and smooth. Powered by plumeria (frangipani) flower extract, sodium hyaluronate and pracaxi seed oil to cleanse and hydrate your skin.

KidScents GeneYus 5 ml: Created with your little ones in mind, GeneYus™ is a beautiful blend to diffuse for young minds that are focusing and concentrating on projects. Featuring empowering oils like Sacred Frankincense, Palo Santo and Melissa, GeneYus™ can be diffused to create a positive environment and enhance creativity or applied topically to bring a sense of alertness and clarity!

KidScents Sleepylze Roll-On: Just a swipe of this peaceful aroma before bedtime will help your child (or yourself) settle in with a grin! With a soothing blend of Lavender, Geranium, Roman Chamomile and Bergamot essential oils, Sleepylze™ helps set the scene for a calm nighttime routine. Roll this peaceful blend on the bottoms of your child's feet, neck or chest to help unwind at the end of the day.

Super Vitamin D: Did you know many people don't get enough vitamin D from the sun alone? Especially if you spend most of your time indoors. Try incorporating a supplement to ensure you're reaching your daily goals. With our proprietary formula and delivery system, our plant-based Super Vitamin D is highly absorbable, vegan-friendly and completely synthetic-free! Dissolvable in a delicious mixed berry-flavoured tablet, Super Vitamin D helps enhance bone health and supports muscle health. Vitamin D helps calcium absorption and a diet deficient in calcium can lead to osteoporosis in later life.
