

Master Cellular Nutrition™ System

Brand Partner FAQ

Q. What is the Master Cellular Nutrition™ system?

A. Master Cellular Nutrition is a daily, triple-action supplement system designed to support your body at the cellular level. It combines high-potency vitamins and minerals, plant-based nutrients, and targeted cellular support to help promote healthy aging, support a normal inflammatory response, and fill common nutrient gaps.*

Q. Will the Master Cellular Nutrition system replace Master Formula™ supplement?

A. Yes, Master Cellular Nutrition is intended to replace Master Formula supplement (Item No. 5292). Master Formula supplement will sunset when current inventory levels are depleted.

Q. How is this different from a multivitamin?

A. Multivitamins focus only on basic nutrient intake. Master Cellular Nutrition goes further by:

- Providing 100 percent or more of key daily nutrients to help fill common gaps*
- Supporting a healthy inflammatory response to oxidative stress*
- Delivering targeted support for cellular function and healthy aging*

It's designed to help your body use what it already has more effectively with a complete system, not just a single supplement.*

Q. What does “cellular health” mean?

A. Your cells are responsible for many things, including how your body produces energy (energy metabolism), responds to stress, and maintains proper function. Over time, these processes can become less efficient.

Master Cellular Nutrition supports:

- Cellular antioxidant defenses to help the body manage oxidative stress*
- Healthy cellular division and generation for everyday vitality*
- How your body converts food into cellular energy*

This helps support how your body functions day to day and over time.*

Q. What are “zombie” cells?

A. “Zombie” cells is a common nickname for senescent cells. These are cells that no longer function optimally, but instead of being cleared away, they tend to linger.

This formula includes ingredients that:

- Target pathways associated with cellular senescence (“zombie” cells)*
- Help support routine biological signaling linked to healthy aging*

Because when your cells thrive, you thrive too.

Q. Who is this product for?

A. This product is ideal for adults who:

- Want to stay proactive about their health
- Feel like their vitality isn't what it used to be
- Want more than a basic multivitamin
- Prefer a simple, all-in-one daily system

It's designed for people who want today's nutrition for tomorrow's vitality.*

Q. What benefits can be expected?

A. With consistent use, the Master Cellular Nutrition system helps support:

- Healthy aging by protecting cells from oxidative stress*
- A normal inflammatory response*
- Converting food into cellular energy*
- Healthy bones and muscle function*
- Immune and metabolic function*

Think of it as daily foundational support for long-term vitality.*

Q. How long does it take to notice results?

A. Because this product supports foundational processes, results may feel gradual.

With consistent daily use, you may notice steady support for:

- Energy metabolism*
- Healthy digestion*
- Everyday vitality*

What to expect over time:

- Early support within the first few weeks*
- More noticeable benefits with consistent use over 30–90 days*

Consistency is key for long-term, steady support.

Q. What makes this product “high potency”?

A. It provides 100 percent or more of the Daily Value for key essential vitamins and minerals to help fill common nutrient gaps.*

Q. Is it safe for daily use?

A. Yes, when used as directed. It's formulated for daily use to support ongoing wellness and vitality.*

Q. Can I take this with other supplements?

A. Yes, you can still take other supplements for specific needs. However, Master Cellular Nutrition is designed to be your daily foundation. It delivers 100 percent or more of the Daily Value of many key essential vitamins and minerals, so you may not need as many additional products. We always recommend you review your supplement regimen with your health care provider to make sure you're meeting your needs.

Because it combines multiple benefits into one simple system, it can help streamline your routine and reduce supplement overload.

If you're taking medications or have specific health concerns, it's always a good idea to check with your healthcare provider.

Q. Can I take Master Cellular Nutrition with the Balance & Burn™ System?

A. Yes. Master Cellular Nutrition is designed to be your daily nutritional foundation, supporting healthy aging and overall wellness. The Balance & Burn System is a perfect add-on to this foundation if you're working on weight-management goals.*

Q. Is Master Cellular Nutrition vegetarian and/or vegan-friendly?

A. Yes, Master Cellular Nutrition doesn't include animal-derived ingredients.

Q. Does Master Cellular Nutrition contain caffeine?

A. The green tea included in Master Cellular Nutrition is decaffeinated, but it may naturally contain trace amounts of caffeine (under 1 mg per serving).

Q. Does this product include ingredients containing gluten?

A. No, there are no gluten-derived ingredients in Master Cellular Nutrition.

Note: This product may be manufactured in a facility that uses gluten in other product formulations; however, according to CGMPs (current good manufacturing practices), the machinery is cleansed and sanitized between products to prevent contamination. If you have additional concerns about using this product, we encourage you to speak to your health care provider.

Q. Are corn-derived ingredients used in the product formulation?

A. Some excipients, incidentals, or flow agents in single raw materials can be derived from corn, but if utilized, they are non-GMO.

Note: This product may be manufactured in a facility that uses corn in other product formulations; however, according to CGMPs (current good manufacturing practices), the machinery is cleansed and sanitized between products to prevent contamination. If you have additional concerns about using this product, we encourage you to speak to your health care provider.

Q. Are soy-derived ingredients used in the product formulation?

A. No, there are no soy-derived ingredients in Master Cellular Nutrition.

Note: This product may be manufactured in a facility that uses soy in other product formulations; however, according to CGMPs (current good manufacturing practices), the machinery is cleansed and sanitized between products to prevent contamination. If you have additional concerns about using this product, we encourage you to speak to your health care provider.

Q. Are palm/coconut-derived ingredients used in the product formulation?

A. No, there are no palm/coconut-derived ingredients in this Master Cellular Nutrition.

Note: This product may be manufactured in a facility that uses palm or coconut in other product formulations; however, according to CGMPs (current good manufacturing practices), the machinery is cleansed and sanitized between products to prevent contamination. If you have additional concerns about using this product, we encourage you to speak to your health care provider.

Q. Are tree nut-derived ingredients used in the product formulation?

A. No, there are no tree nut-derived ingredients in Master Cellular Nutrition.

Note: This product may be manufactured in a facility that uses tree nuts in other product formulations; however, according to CGMPs (current good manufacturing practices), the machinery is cleansed and sanitized between products to prevent contamination. If you have additional concerns about using this product, we encourage you to speak to your health care provider.

Q. Are sesame-derived ingredients used in the product formulation?

A. No, there are no sesame-derived ingredients in Master Cellular Nutrition.

Note: This product may be manufactured in a facility that uses sesame in other product formulations; however, according to CGMPs (current good manufacturing practices), the machinery is cleansed and sanitized between products to prevent contamination. If you have additional concerns about using this product, we encourage you to speak to your health care provider.

Q. Why weren't fatty acids included in Master Cellular Nutrition?

A. Omega fatty acids are an important part of overall wellness, but we intentionally did not include them in Master Cellular Nutrition because they're best delivered in oil-based softgels or liquid formats. Omega oils have unique stability, freshness, sourcing, and dosage requirements that are difficult to optimize in a powdered daily system. Including meaningful amounts would have significantly changed the serving size, texture, and overall experience of the product. To get your daily dose of essential fatty acids, pair Master Cellular Nutrition with the vegan omega-3 supplement Green Omega 3™ softgels.
