

Green Omega 3™ softgels FAQ

Get your omega-3s straight from the plant source! A vegan, more-sustainable alternative to fish oil supplements, Green Omega 3 softgels contain the three major essential fatty acids you need to round out your daily supplement routine.

Q. Are Green Omega 3 softgels replacing OmegaGize3® capsules?

A. Yes, Green Omega 3 softgels contain a fully plant-derived formula that offers more DHA and EPA than OmegaGize3 capsules. As a result, it is a more sustainable and effective omega-3 supplement.

Q. Why did you choose to use non-fish omegas in Green Omega 3 softgels?

A. A plant-based source of omega-3 has many benefits over the traditional fish-based omega-3 sources. These benefits include less impact on the marine ecosystem, reduced potential for marine contaminants, and a product without a fishy smell, or aftertaste.

Q. What is the intended age range of consumption?

A. Green Omega 3 softgels are formulated for adults ages 18 and older.

Q. How often should Green Omega 3 softgels be consumed?

A. Adults should take 2 softgels daily.

Q. Are Green Omega 3 softgels vegetarian and/or vegan-friendly?

A. Yes, Green Omega 3 softgels are both vegetarian and vegan friendly.

Q. Are any ingredients containing gluten included in Green Omega 3 softgels?

A. There are no gluten-containing ingredients used in the formulation of Green Omega 3 softgels. However, we cannot guarantee the product as gluten free. It is possible that

this product is manufactured in facilities that use gluten in product formulations. Though there may be gluten processed in the same facility, please rest assured that according to cGMPs (current good manufacturing practices), the machinery is cleansed and sanitized between products to prevent contamination. If you have additional concerns about the use of this product, we encourage you to speak to your health care provider.

Q. Are corn-derived ingredients present in Green Omega 3 softgels? Are they GMO?

A. There are no corn-derived ingredients used in the formulation of Green Omega 3 softgels. It is possible that this product is manufactured in a facility that uses corn in other product formulations. Though there may be corn processed in the same facility, please rest assured that according to cGMP (current good manufacturing practices) the machinery is cleansed and sanitized between productions to prevent contamination. If you have additional concerns about the use of this product, we encourage you to speak to your health care provider.

Q. Are soy-derived ingredients present in Green Omega 3 softgels? Are they GMO?

A. There are no soy-derived ingredients used in the formulation of Green Omega 3 softgels. It is possible that this product is manufactured in a facility that uses soy in other product formulations. Though there may be soy processed in the same facility, please rest assured that according to cGMP (current good manufacturing

practices) the machinery is cleansed and sanitized between productions to prevent contamination. If you have additional concerns about the use of this product, we encourage you to speak to your health care provider.

Q. Are ingredients derived from palm/coconut present in Green Omega 3 softgels?

A. The glycerin used in Green Omega 3 softgels may be partially derived from palm oil. If you have further concerns, please speak to your health care provider prior to use.

Q. Are ingredients derived from tree nuts present in Green Omega 3 softgels?

A. There are no nut-derived ingredients used in the formulation of Green Omega 3 softgels. It is possible that this product is manufactured in a facility that uses tree nuts in other product formulations. Though there may be tree nuts processed in the same facility, please rest assured that according to cGMP (current good manufacturing practices) the machinery is cleansed and sanitized between productions to prevent contamination. If you have additional concerns about the use of this product, we encourage you to speak to your health care provider.

Q. Are ingredients derived from sesame present in Green Omega 3 softgels?

A. There are no sesame-derived ingredients used in the formulation of Green Omega 3 softgels. It is possible that this product is manufactured in a facility that uses sesame in other product formulations. Though there

may be sesame processed in the same facility, please rest assured that according to cGMP (current good manufacturing practices) the machinery is cleansed and sanitized between productions to prevent contamination. If you have additional concerns about the use of this product, we encourage you to speak to your health care provider.
