# FAQ

- If there is same number of personal enrollment number in the same group, how to determine the Top 10 ranking?

**Answer : In the event of a tie between one or more participants with the same number of enrollments, the participant would be identified as Top 10 of each group according to the following sequence: 1) Personally enrolled number 2) Personal enrollee accumulated PV during contest period**

For example:

Partner A & Partner B are both belong to group 2, their personal enrolled new brand partners are the same. They are tie and both ranked 10<sup>th</sup>.

However, Partner A new brand partner accumulate purchased PV is 4000PV.

Partner B new brand partner accumulate purchased PV is 3000PV.

Therefore, the final ranking for Partner A is 10<sup>th</sup> and Partner B is 11<sup>th</sup>.
