A. For aromatic use, diffuse up to 1 hour, up to 3 times a day. For topical use, dilute 1 drop of your selected blend with 2 drops of V-6™ Vegetable Oil Complex or olive oil. Test on a small area of the skin on the underside of your arm, then apply to the desired area as needed.

Q. Can the Simplified by Jacob + Kait Winter Collection essential oil blends be ingested?

A. No, these essential oil blends are for topical and aromatic use only.

Q. Does the Simplified by Jacob + Kait Winter Collection necessitate more frequent cleaning of diffusers?

A. Yes, due to the inclusion of fractionated coconut oil (caprylic/capric triglycerides) in the essential oil blends, you may find that you need to clean your diffusers more frequently, specifically those with ultrasonic plates, to reduce buildup that may occur.

Q. Why do many of the Simplified by Jacob + Kait essential oil blends contain caprylic/capric triglycerides?

A. Caprylic/capric triglycerides are used for a variety of reasons. One of the primary reasons is to help balance the low and high scent notes of essential oils to help achieve a specific aromatic profile. For example, caprylic/capric triglycerides help to dilute the strong aromatic profile of Peppermint in the Candy Cane blend to create a balanced scent. The inclusion of caprylic/capric triglycerides does not affect the quality of the essential oil blend.
