This product does not contain yeast, dairy, or gluten. Not vegetarian (contains pancreatin from pork).

What are ENZYMES?

Enzymes are a type of protein that helps break down fats, proteins, fiber, and carbohydrates so the body can absorb these as nutrients and energy.

It also helps break down toxins and supports cell repair, hormone regulation, muscle building, nerve function, respiration, and more.

Why do you need ENZYME SUPPORT?

To combat the modern-day diet by helping the body process food and absorb nutrients better

To maintain a normal digestive enzyme level that declines as you age

To support a healthy immune system, total body function, and healthy skin.

WHY CHOOSE ESSENTIALZYMES-4 FOR YOUR DIGESTIVE HEALTH

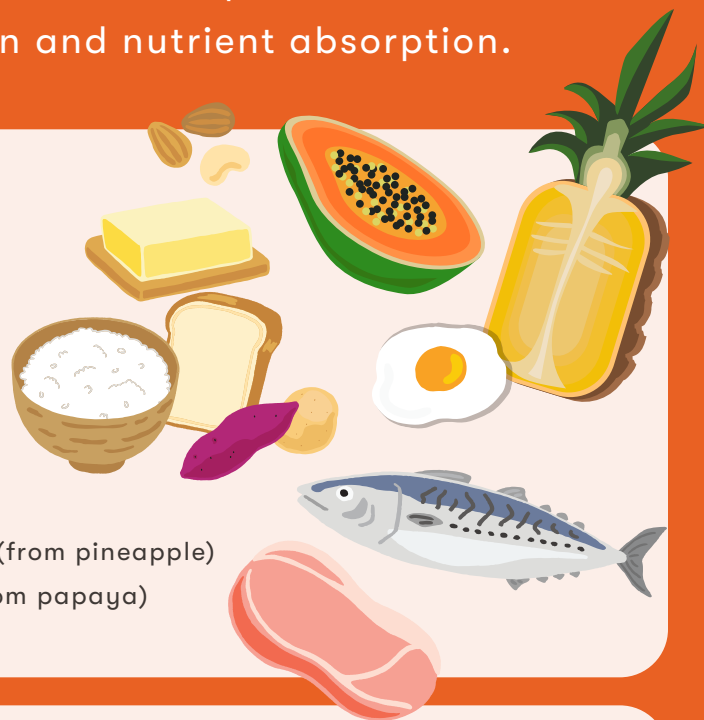

This multi-spectrum enzyme complex features dual enzyme capsules infused with vitality essential oils and a unique time-release technology for optimal digestion and nutrient absorption.

Better Digestion

Each class of enzyme targets the breakdown of specific food that aids in the digestion of fats, proteins, fiber, and carbohydrates.

ENZYMES AND WHAT DO THEY DIGEST:

- Lipase – Fats
- Amylase – Carbohydrates
- Protease – Protein
- Cellulase – Fiber
- Bromelain – Protein (from pineapple)
- Papain – Protein (from papaya)

Dual Target Time-Release Technology

Two types of enzyme capsules are taken together but are released at separate times within the digestive tract for optimal absorption.

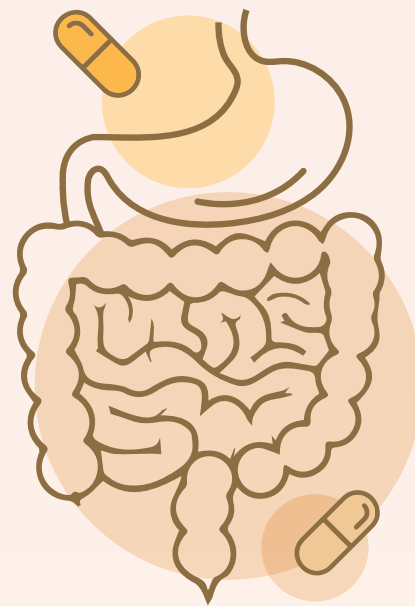

PLANT-BASED

Proteases, Amylase, and Phytase (breakdown of protein and starch) Designed to release immediately within 20mins upon entering the stomach, where the environment is conducive to the digestion of plant material.

ANIMAL-BASED

Lipase (breakdown of fats) Designed to target release in the lower intestine region within 2 hours, where the environment is better suited for the digestion of animal fats and proteins.

Formulated with a unique blend of Vitality Essential Oils

FENNEL

Provides digestive and general wellness support.

ROSEMARY

Contains antioxidants and may provide immune and general wellness support.

TARRAGON

Contains antioxidants and may provide digestive support and cleansing properties.

GINGER

Provides comfort for the digestive system and helps to support weight management as part of a healthy lifestyle.
