

Row of Crocodiles

Directions

1. Lay the paper print side down on the table with the instructions end closest to you.
2. Hold the left edge of the paper down and raise the bottom edge of the paper up to find ① dotted fold line.
3. At the left edge, crease a finger's width of the fold on the dotted line. Align the left edges of paper.
4. Slide your fingers from left to right to crease the fold.
5. Repeat steps 1-3 for line ②.
6. Fold the top edge of the paper down. Align the left edge before creasing from left to right.
7. Finally fold the paper in half the long way. Now you can see half a crocodile.
2. Cut the folded paper along the solid black lines.
3. Unfold the paper and flatten the creases to reveal your row of crocodiles.
