

Fun In The Sun!

Summer

1
Infant
6 weeks - 2 years

Water play is always a hit during the summer season. Socializing infants is very important even if they don't speak yet. Having a place where standing infants can gather around and babble is a great start to conversation while exploring the water.

💡 Learning Outcomes

Domain:

Physical

Skills:

The Senses

Indicator:

Coordinating senses.
Touching, rubbing, squeezing materials.

Materials

- Low water table
- Small cups or buckets
- Rubber ducks (or other animals)
- Water

Instructions

Step 1: Take the water table outside on a nice warm day and fill with cool or warm water depending the temperature outside.

Step 2: Place the cups, buckets and rubber animals in the water.

Step 3: Make sure that the water table is on a safe surface and that there is always supervision of the children.

Step 3: Let them get wet!

🔍 Playful Questions

- "This water is warm"
- "Look at the duck!" Make the duck sound.
- What is this (holding a bucket and pouring out water)?
- What is that sound (as you pour water)?
- What other animals are in the water?
