ENVIRONMENTAL MISSION STATEMENT
OF DUCATI MOTOR HOLDING S.p.A.
For all our products and mobility solutions, Volkswagen Group aspires to minimize environmental impacts along the entire lifecycle – from raw material extraction until end-of-life – in order to keep ecosystems intact and to create positive impacts on society. Compliance with environmental regulations, standards and voluntary commitments is a basic prerequisite of our actions.

Inspired by the Group’s objectives, Ducati Motor Holding S.p.A. focuses its environmental Mission on the following 4 areas:

1. **Climate change:**

   We intend to become a CO2 neutral company by 2050.

   By 2025, we plan to reduce our total life cycle Greenhouse Gas Emissions of our products by 15% compared to 2015.

2. **Resources:**

   We intend to maximize resource efficiency.

   By 2025, we plan to reduce the production-related environmental externalities (CO2, energy, water, waste, volatile organic compounds) by 25% per vehicle compared to 2013.

3. **Air quality:**

   We are developing electric powertrains to improve air quality.

   By 2030, we expect to introduce at least one electric model within our product range.

4. **Environmental compliance**

   We aim to become a role model for a modern, transparent and successful enterprise in terms of integrity by installing and controlling effective management systems covering the environmental impacts of our mobility solutions over all life cycle stages.
