DIAVEL V4

Dare to be Bold

Muscular, sporty, exaggerated and elegant at the same time, able to magnetize attention in any context, **Diavel V4** synthesizes seemingly distant technical, dynamic and stylistic features, such as those of sport naked and muscle cruisers.

The exhilarating performances of the **V4 Granturismo engine** are combined with **surprising agility and dynamics** for such a motorcycle.

Muscular, gritty, with its broad "shoulders" and proudly visible four-exit exhaust, the Diavel V4 is designed to not go unnoticed. Starting with the new front and rear light cluster, to the retractable passenger footpegs and the retractable rear grab bar are the **details that make the difference** and make the design of this bike even more unique and unmistakable.
