Mad for Fun

The Monster range grows with the **SP version**, designed to **enhance fun**, thanks to **technical equipment** perfect for those who love sporty riding and with a style embellished by the **Desmosedici GP-inspired livery**.

The Monster SP takes the 2022 colors of the official team's Desmosedici GP, mounts **Öhlins suspension** and **Termignoni** homologated silencer, **Brembo Stylema®** calipers and **Pirelli Diablo Rosso IV** tires.

The sporting potential of the Monster SP is further enhanced by the steering damper, which improves stability under acceleration and cornering, while the general lightening of the bike also comes with the adoption of a lithium-ion battery, which brings the overall running order weight saving to about 2 kg compared to the standard model.

True sporty equipment that will make you fall in love with the new Monster SP, available also in depowered version.
