

MONSTER 797

Fresh
Vibes.
Sporty
Soul.

Contemporary and iconic as only a Monster can be. With its unmistakeable lines and compact, essential design, it embodies all that is Monster style. Thanks to a chassis that ensures excellent handling, it can adapt to any situation, whether in or out of the city. The Brembo brakes and Bosch 9.1 MP ABS as standard make sports riding even more enjoyable while always ensuring maximum safety. Making every riding experience as unique as it is easy and intuitive. Pure sports enjoyment, Ducati style.

Contemporary and iconic

The Monster 797 takes inspiration from its roots and injects a modern twist. This shines through in the personality, style and sports look of the circular headlight with LED positioning lights, the slim tailpiece and unmistakable tank that reintroduces the fastening hook seen on early models. Traditional elements such as the trellis frame and cooling fins of the Desmodue twin are combined with state-of-the-art components, making the Monster 797 both contemporary and iconic.

Agility and control

73 horsepower, 6.8 Kgm of torque at 5,750 rpm: with fluid, constant, easy to manage delivery, the 803 cc Desmodue twin is ideal for enjoyable sports riding. The torque curve is almost flat, with 90% of the torque available between 4,000 and 8,500 rpm, ensuring maximum riding enjoyment with full delivery at any speed, always ready to fulfil a rider's every request.

Sporty, compact design

The design of the Monster 797 is all about lines that are agile and dynamic, elegant and muscular, integrating perfectly with the wide handlebar, the tank, the engine and the double-sided swingarm. Lines that emphasise its safety and sporty nature right from first glance. It has a distinct style, with structural details that become true design elements, such as the traditional Ducati trellis frame. An essential and sophisticated bike, where every element is an expression of stylistic and technical research. The Monster 797 is available in colours Star White Silk and Ducati Red, embellished with new graphics on the tank, threads on the rims and the new saddle.

Turn up the fun

The Monster 797 boasts a modern and complete range of equipment. The large LCD hi-vis screen of the dashboard provides all the information needed for riding, while LED technology enhances the positioning light of the front headlight, rear light and licence plate light. Under the seat is a practical USB port for recharging a phone. The Monster 797 is also available for those with a restricted licence, as a version with 35 kw of regulated power. Contact your dealer to check availability.

The pleasure of sports riding

The Monster 797 is perfect for those approaching the Ducati world, and the bike world in general, for the first time while, at the same time, also offering more expert riders a truly enjoyable riding experience. The low and narrow seat, wide handlebars and wide steering angle ensure agility in traffic and stability at high speed. The 43 mm upside down fork, fully adjustable single shock, braking system with 320 mm front discs and Brembo M4.32 radial callipers all provide great feeling, whatever a rider's level of experience. The compact measurements and reduced wheelbase ensure great handling in both the changes of direction and in corner entry, while Bosch 9.1 MP ABS as standard makes sports riding even more exciting and safe.

Monster 797+

The Monster 797 is also available as a Plus version, even more unmistakeable. The Monster 797+ boasts a distinctive look, thanks to standard equipment that includes the front fairing and the passenger seat cover, which both match the tank and front mudguard. This equipment enriches the lines of the Monster and improves riding comfort thanks to the front fairing that optimises the rider's aerodynamic protection. The Plus version of the Monster 797 is also available in the two colour schemes of Star White Silk and Ducati Red.

Technical data
and equipment

MONSTER 797

Bodywork: Ducati Red
Frame: Ducati Red

Bodywork: Star White Silk
