Smog Inspection 1995 and older Perform appropriate smog inspection for vehicle. Reason For Smog: Pass Failed X\_ Diagnostic Phase 1 Diagnostics includes a test drive to verify customers complaint ( needed or possible) followed by a preliminary inspection. We th retrieve data from the engine control unit. (if applicable) The nex step is any needed inspections of the electronic engine controls fuel and ignition system.(if applicable) Plus complaint specific diagnostics using available data and equipment. Note: if components need to be removed to test additional charges may occur. You will be notified for approval prior to removal. Diagnostics is the process of elimination. We verify the correct operation of systems involved. Once it is determined which sy is not working correctly, we then have to test components within affected system until a problem is found and a solution is arrive This must then be corrected before it is possible to know if this entire problem or just one facet of the problem. To arrive at the complete solution may be multifaceted. We will keep you infor After repairs note: Some diagnositic codes prevent other code being set. (if applicable) After diagnosing and repairing codes present on arrival the engine management system may identif further codes that will need to be diagnosed. (if applicable) The may reset either right away or at a later date, if this happens, additional diagnostic fees may occur

\$ 1,19015

Checked for Vac leaks

Found intake manifold leaking on passenger side Need to remove and replace intake manifold gasket then re v any other issues

INTAKE MANIFOLD GASKET - Remove & Replace - V8,400CID Eng

removed and replaced intake manifold gasket Checked Tp readings after OK

Test drive OK

Brake master cylinder is covered in fluid and vehicle is hard

Express Oil Change Plus

We recommend changing oil every 3500 miles, your manufacturer may have a different recommended interval, if you would like a different interval than we use let us know and your reminder sticker will reflect as such.
