11/21/2011		General Motors		Manufacturer Non-Compliance recall issued - NHTSA #11V534 - Recall #A110306 FRONT PASSENGER AIRBAG COMPLIANCE - REPROGRAM SENSING AND DIAGNOSTIC MODULE - Status: Remedy Available Locate an authorized General Motors dealer to obtain more information about this recall. Learn more about this recall
Description: General Motors is recalling certain model year 2008-2009 Pontiac G8 vehicles manufactured from November 2, 2007 through January 22, 2009. A 5th percentile female anthropomorphic test device (ATD) in a 30 mph frontal barrier test exceeded the head injury criteria (HIC) requirements of the standard. With the front passenger seat positioned full forward, the seat position sensor will cause a 30 milliseconds deployment delay between the first and second stages of the dual-stage frontal passenger air bag. In the event of a crash, this delay may result in increased head injury to certain front seat occupants. Remedy: Dealers will reprogram the sensing and diagnostic module free of charge.

06/03/2014		Michigan Motor Vehicle Dept. Macomb, MI		Registration issued or renewed - Registration updated when owner moved the vehicle to a new location
09/04/2014		General Motors		Manufacturer Safety recall issued - NHTSA #14V540 - Transport Canada# 2014379 - Recall #N140445 IGNITION SYSTEM AND UNINTENDED KEY ROTATION - Status: Remedy Available Locate an authorized General Motors dealer to obtain more information about this recall. Learn more about this recall

Description: General Motors has decided that a defect which relates to motor vehicle safety exists in 2011-2013 model year (MY) Chevrolet Caprice and 2008-2009 MY Pontiac G8 vehicles. There is a risk, under certain conditions, that some drivers may bump the ignition key with their knee and unintentionally move the key away from the "run" position.

If this occurs, engine power, and power braking will be affected and power steering may be affected, increasing the risk of a crash. The timing of the key movement out of the "run" position, relative to the activation of the sensing algorithm of the crash event, may result in the airbags not deploying, increasing the potential for occupant injury in certain kinds of crashes.

Remedy: Dealers will separate the Remote Keyless Entry (RKE) Transmitter from the key blade and housing assembly. Dealers will then discard the original key blade and housing assembly, ensuring that it is not retained by the customer. Dealers will then cut and fit the revised key blade and housing assembly, in which the blade has been indexed by 90 degrees, to the original RKE transmitter assembly. This will be provided free of charge. Until the recall has been performed, it is very important that drivers adjust their seat and steering column to allow clearance between their knee and the ignition key.

 - Recall #N150206 FRONT SEAT SAFETY BELT
 - Status: Remedy Available

Locate an authorized General Motors dealer to obtain more information about this recall.

🔗 **Learn more about this recall**

Description: General Motors has decided that a defect which relates to motor vehicle safety exists in 2011-2013 model year Chevrolet Caprice and 2008-2009 model year Pontiac G8 vehicles. The flexible steel cable that connects the safety belt to the vehicle at the outside of the front outboard seating positions can fatigue and separate over time as a result of occupant movement into the seat.

In a crash, a fatigued cable could break, reducing the effectiveness of the vehicle's safety belts and increasing the risk of injury to the occupant.

Remedy: Dealers will replace the tensioner assembly, free of charge.

Glossary

First Owner

When the first owner(s) obtains a title from a Department of Motor Vehicles as proof of ownership.

Manufacturer Recall

Automobile manufacturers issue recall notices to inform vehicle owners of a safety defect or failure to meet minimum federal safety or emissions standards. Manufacturer recalls are repaired at no cost to the customer.

Ownership History

CARFAX defines an owner as an individual or business that possesses and uses a vehicle. Not all title transactions represent changes in ownership. To provide estimated number of owners, CARFAX proprietary technology analyzes all the events in a vehicle history. Estimated ownership is available for vehicles manufactured after 1991 and titled solely in the US including Puerto Rico. Dealers sometimes opt to take ownership of a vehicle and are required to in the following states: Maine, Massachusetts, New Jersey, Ohio, Oklahoma, Pennsylvania and South Dakota. Please consider this as you review a vehicle's estimated ownership history.
