GALPIN CHARGES FOR REPAIR LABOR ARE NOT BASED ON ACTUAL MECHANIC'S TIME SPENT ON THE JOB. Rather, you are given a menu price which will be quoted to you and authorized by you in advance of the prescribed repair. If we discover that different or additional repairs are appropriate, you will be contacted for your advance approval of a revised quotation. Our menu prices are computed internally by multiplying our retail hourly labor rate by a time factor allotted to the repair. This time factor and our menu prices are based on our evaluation of the complexity of the work required, our costs for doing business, and, of course, our desire to remain competitive. We believe our menu pricing is advantageous to our customers because your price for a prescribed repair remains the same regardless of how long the repair actually takes to be completed

I acknowledge receipt of the parts and labor listed on this invoice.

I acknowledge notice and oral approval of an increase in the original estimated price.
