+25%
for extremely rare bright 1978-only colors like Apple Green, Fern Green, Continental Orange and Arrow Blue.

+5%
for original bright trim on coupes and brushed stainless Targa bar.

Model description

Porsche engineers don't make mistakes very often, but the U.S.-spec 2.7-liter 911s built between 1975 and 1977 were plagued with engine problems when new. In 1978, Porsche put those problems behind them with the introduction of the brilliant 3.0 liter 911SC. Porsche now finally mated a body that was capable of lasting indefinitely with an engine that was capable of lasting nearly that long. Well maintained 911SCs are capable of 300,000 miles between rebuilds.

*Please note: All prices shown here are based on various data sources, as detailed in [About Our Prices](#). For all Hagerty clients: The values shown do not imply coverage in this amount. In the event of a claim, the Guaranteed Value(s)[®] on your policy declarations page is the amount your vehicle(s) is covered for, even if the value displayed here is different.
