OWNER PROTECTION PLAN
AND NEW VEHICLE WARRANTY

IMPORTANT

The Owner Protection Plan and the Pontiac New Vehicle Warranty contained herein applies to the Vehicle identified on the Protect-O-Plate attached hereto. For convenience, such Vehicle is referred to at times simply as the Vehicle.

The booklet with the Protect-O-Plate attached must be kept with the vehicle at all times. The Vehicle and this booklet must be made available to an authorized Pontiac Dealer if warranty work becomes necessary, and once every twelve months during the warranty period as part of the warranty maintenance and mileage validation requirement. This requirement also applies to owners other than the original purchaser. Therefore, the booklet and Vehicle Data portion of the Protect-O-Plate must remain with the Vehicle at time of resale.

WARRANTY INFORMATION

Under the provisions of the Pontiac New Vehicle Warranty, a record of the required maintenance services must be validated by an authorized Pontiac Dealer twelve (12) months after the original delivery date and each twelve (12) months thereafter during the warranty period. Dealer will furnish a report of such validation to Pontiac Motor Division.

PHS *automotive services, inc.*

Dear Pontiac Enthusiast:

Thank you for your inquiry concerning the history package on your Pontiac. There are several items that you should be aware of:

1. The microfilm quality is not the best. In those cases where it is difficult to read, we've hand written the data. Additionally, in all cases, the copy attached is the very best we can reproduce.
2. We've attached a copy of the car order form, matching your car, for ease in decoding the manifest or billing history card. Options such as code "382" found on the manifest refer to the same option on the order form (in this case a "382" is the GTO option for 1964/65). Don't try to decode all of options from the manifest, as several codes were used to describe things as "Winter Antifreeze" and are not listed on the order form.
3. One trick is required:

Manifest Code

503

Car Order Form Code

501 - Power Steering

502 Power Brakes

Add the 50(1) and the 50(2) to get 50(3). This applies to all manifests and billing history cards.

(Note: 1969 and newer Pontiacs have their options already decoded, so the above information need not apply.)

We have made every effort to be as thorough as possible in responding to the varied special requests that we have received, in addition to the vin information package on your vehicle. Some of these requests are, unfortunately, impossible to fill or the information requested no longer exists.

Sincerely,

PHS Historic Services

June 9, 1994

Mike,

We purchased this car from the estate of Mr. Homer Woodard after it had been stored for more than ten years in an aircraft hanger in Farmerville, LA. The odometer showed 90,000 miles.

It has been restored to original and painted with Dupont basecoat-clearcoat paint. The color is Pontiac "Torch Red". Dupont Variprime was used after sand-blasting and beadblasting. Dupont URO primer was the undercoat. The backseat floor pans were replaced and metal-finished, both top and bottom so that they are undetectable. All body panels are straight, not wavy,

All mechanical systems have been restored to original. The odometer was set to zero and the car has 400 miles since restoration was completed in February, this year.

The engine is the original that came in the car from the factory and is coded "WZ". Machine shop receipts total \$473.00 and include three angle valve grind, grinding crank, new cam shaft and bearing. Block was checked and original rods squared. Cylinder wear did not justify boring so they were honed. I assembled the engine myself.

We are a small restoration shop and have been in this business for about ten years. We certify this car to be restored to our standards of show quality and feel it should do well in any show competition.

Sincerely,

Dale & Jan Bruce
