## SUMMARY

A title brand is an official record of damage or other information about a vehicle that could affect its value or the ability to operate it safely. For example, a “rebuilt” title brand means the vehicle has suffered enough damage to be declared a total loss by an insurance company and then was rebuilt. A title brand remains on record for the life of the vehicle. This section gives you a summary view of the total number of "Brands" associated with this VIN since its first record of sale. If this section shows any hits, you can find the details including the branding type record, who entered the record, when it was entered and more in the sections below. [1]

## TITLE HISTORY

This section shows you each State where the vehicle has been titled, when it was titled, the odometer reading on the date of title, etc. There is good information here to protect you from fraud. Keep an eye out for the odometer readings. If the current odometer reading is less than it was in one of these title records, you might suspect a fraud tactic called Odometer Rollback. You should also make sure the vehicle make and its model year match the "VEHICLE INFORMATION SECTION" above. If you find any discrepancies, take this report to your nearest department of motor vehicles for a detailed analysis by an expert. [1]

| Title Issue Date | State | VIN | Odometer |
|---|---|---|---|
| 10/19/2026 | ARIZONA TITLE - CURRENT | P5FH184860 | 0 KILOMETERS |
| 05/29/2026 | CALIFORNIA TITLE | P5FH184860 | EXEMPT |
| 08/31/2007 | CALIFORNIA TITLE | P5FH184860 | UNKNOWN |

## HOW TO REQUEST A STATE VEHICLE RECORD

**ARIZONA TITLE - CURRENT**
If you are the owner of record on the Arizona title, you may purchase a Title and Registration Motor Vehicle Record (MVR) online through AZ MVD Now (https://azmvdnow.gov/home/) or by mail using Form 46-4416. If you are a prospective buyer of a vehicle currently titled in Arizona, ask the vehicle owner to provide an Arizona MVR prior to purchase. Vehicles not titled or registered in Arizona during the last 5 years may not be eligible.

**CALIFORNIA TITLE**
Request via the State of California Department of Motor Vehicles: https://www.dmv.ca.gov/portal/file/request-for-record-information-inf-70-pdf/

## JUNK/SALVAGE/INSURANCE HISTORY

If a Salvage record is listed it means that the vehicle is damaged to the extent that the cost of repairing the vehicle exceeds approximately 75% of its pre-damage value. This damage threshold may vary by state. Some states treat Junk titles the same as Salvage but the majority use this title to indicate that a vehicle is not road worthy and cannot be titled again in that state. The following eleven states also use Salvage titles to identify stolen vehicles - AZ, FL, GA, IL, MD, MN, NJ, NM, NY, OK and OR. If you find that a Junk record is listed, then the vehicle is incapable of operating on public streets, roads, and highways and it has no value except as a source of parts or scrap. [1]

***Explanatory Note:***

If this VIN has a record in the **Junk/Salvage or Insurance information** then the business that submitted the VIN to NMVTIS deemed the vehicle to be either a *junk, salvage, or in the case of an insurer, a total loss*. The information in the **DISPOSITION** field in the Junk/Salvage section denotes what has happened to the VIN (i.e., vehicle) since it came into the possession of the business.

## BRAND HISTORY

This section provides the details of each branding record found on this VIN. The records are listed in chronological order so you can get a clear picture of the history of this vehicle. Definitions to each brand type listed can be found in the Glossary on the last page. [1]

| Date Applied | Branding Agency | Branding Entity Name | Brand |
|---|---|---|---|
| 05/29/2026 | State | CALIFORNIA | Salvage--Damage or Not Specified |

## BRAND GLOSSARY

**Salvage--Damage or Not Specified** — Any vehicle which has been wrecked, destroyed or damaged, to the extent that the total estimated or actual cost of parts and labor to rebuild or reconstruct the vehicle to its pre-accident condition and for legal operation on roads or highways exceeds a jurisdiction-defined percentage of the retail value of the vehicle. The retail value of the vehicle is determined by a current edition of a nationally recognized compilation (to include automated data bases) of retail values. Salvage--Damage or Not Specified also includes any vehicle to which an insurance company acquires ownership pursuant to a damage settlement, or any vehicle that the vehicle's owner may wish to designate as a salvage vehicle by obtaining a salvage title, without regard to extent of the vehicle's damage and repairs, or any vehicle for which the jurisdiction cannot distinguish the reason the vehicle was designated salvage.

## NMVTIS CONSUMER ACCESS PRODUCT DISCLAIMER

The National Motor Vehicle Title Information System (NMVTIS) is an electronic system that contains information on certain automobiles titled in the United States. NMVTIS is intended to serve as a reliable source of title and brand history for automobiles, but it does not contain detailed information regarding a vehicle's repair history.

All states, insurance companies, and junk and salvage yards are required by federal law to regularly report information to NMVTIS. However, NMVTIS does not contain information on all motor vehicles in the United States because some states are not yet providing their vehicle data to the system. Currently, the data provided to NMVTIS by states is provided in a variety of time frames; while some states report and update NMVTIS data in "real-time" (as title transactions occur), other states send updates less frequently, such as once every 24 hours or within a period of days.

Information on previous, significant vehicle damage may not be included in the system if the vehicle was never determined by an insurance company (or other appropriate entity) to be a "total loss" or branded by a state titling agency. Conversely, an insurance carrier may be required to report a "total loss" even if the vehicle's titling-state has not determined the vehicle to be "salvage" or "junk."

A vehicle history report is NOT a substitute for an independent vehicle inspection. Before making a decision to purchase a vehicle, consumers are **strongly encouraged to also obtain an independent vehicle inspection** to ensure the vehicle does not have hidden damage. The Approved NMVTIS Data Providers (look for the NMVTIS logo) can include vehicle condition data from sources other than NMVTIS.

NMVTIS data INCLUDES (as available by those entities required to report to the System):

- Information from participating state motor vehicle titling agencies.
- Information on automobiles, buses, trucks, motorcycles, recreational vehicles, motor homes, and tractors. NMVTIS may not currently include commercial vehicles if those vehicles are not included in a state's primary database for title records (in some states, those vehicles are managed by a separate state agency), although these records may be added at a later time.
- Information on "brands" applied to vehicles provided by participating state motor vehicle titling agencies. Brand types and definitions vary by state, but may provide useful information about the condition or prior use of the vehicle.
- Most recent odometer reading in the state's title record.
- Information from insurance companies, and auto recyclers, including junk and salvage yards, that is required by law to be reported to the system, beginning March 31, 2009. This information will include if the vehicle was determined to be a "total loss" by an insurance carrier.
- Information from junk and salvage yards receiving a 'cash for clunker" vehicle traded-in under the Consumer Assistance to Recycle and Save Act of 2009 (CARS) Program.

Consumers are advised to visit vehiclehistory.bja.ojp.gov/ for details on how to interpret the information in the system and understand the meaning of various labels applied to vehicles by the participating state motor vehicle titling agencies.

# WARNING

**According to a vehicle history report issued by the National Motor Vehicle Title Information System (NMVTIS), this vehicle has been reported as a total-loss vehicle by an insurance company, has been reported into NMVTIS by a junk or salvage reporting entity, or has a title brand which may materially affect the value, safety, and/or condition of the vehicle. Because of its history as a junk, salvage, or title-branded vehicle, the manufacturers's warrantly or service contract on this vehicle may be affected. Ask the dealer to see a copy of the NMVTIS vehicle history report. You may independently obtain the report by checking NMVTIS online at www.vehiclehistory.gov.**
