## Model description

The Cadillac CTS-V blends the refinement of a luxury car with the potency of one of GM's most powerful engines. There were three ways to enjoy the 2012 Cadillac CTS-V – Sedan, Coupe, or Sport Wagon. All three feature a pronounced power-dome hood, chrome mesh front grille, and aerodynamic lower front bodywork. The Coupe features a more aggressive lower front clip and unique center-mounted exhaust outlets. The Sport Wagon also has a unique look, and the benefit of up to 58 cubic feet of cargo space. A standard 2012 Cadillac CTS-V started at around \$63,000.

The CTS-V is powered by a supercharged 6.2-liter LSA V8, which is based on the LS9 V8 from the Chevrolet Corvette ZR1. The LSA makes 556 horsepower and 551 pound feet of torque, routed to the rear wheels through either a 6-speed manual or 6-speed automatic transmission with paddle shifters. CTS-Vs with a manual, especially wagons, are particularly desirable.

## Vehicle's condition classification

### #1. Concours

#1 vehicles are the best in the world. Imagine the best vehicle, in the right colors, driving onto the lawn at the finest concours. Perfectly clean, the vehicle has been groomed down to the tire treads. Painted and chromed surfaces are mirror-like. Dust and dirt are banned, and materials used are correct and superbly fitted.

### #2. Excellent

#2 vehicles could win a local or regional show. They might even be former #1 vehicles that have been driven or have aged. Seasoned observers will have to look closely for flaws but will be able to find some. The paint, chrome, glass and finishes will all appear as excellent. The vehicle drives as a new vehicle of its era would.

### #3. Good

#3 vehicles drive and run well but are not used for daily transportation. The casual passerby will not find any visual flaws, but these vehicles might have some incorrect parts. #3 vehicles could possess some, but not all, of the issues of a #4 vehicle, but they will be balanced by other factors such as fresh paint or a new, correct interior.

### #4. Fair

#4 vehicles are daily drivers, with flaws visible to the naked eye. The chrome might have pitting, the windshield might be chipped and perhaps the body has a minor dent. Imperfect paintwork, split seams or a cracked dash might be present. No major parts are missing, but there might be non-stock additions. A #4 vehicle can also be a deteriorated restoration.
