Return Policy

Mid Fifty F-100 parts will always stand behind our parts, with regard to defects or damage that we are responsible for. To help us maintain this policy, please open and inspect all parts upon receipt. Parts returned for defect will not be subject to a restocking fee

Please test fit all parts prior to installation/modification. Items that have been modified, painted, installed, etc. are not returnable.

For returns at customer discretion, a flat processing fee of 5% will be applied to any part returned for refund (credit card, paypal, check). There is no restocking fee if you want store credit for your return, if items returned are in perfect condition.

Items returned that were part of a kit will incur a 15% fee, since the return amount is based off the retail price, and items in a kit are already discounted.

Aged product:

Un-installed electrical items are not returnable after 90 days. Installed electrical items are NON-returnable.
Electrical items are ineligible for replacement after 1 year from date of purchase.
Wood products are not returnable after 30 days.
Rubber and Raw Steel are not returnable after one year.
Polished Stainless, Chrome and Polished Aluminum are not returnable after one year.

SPECIAL ORDER ITEMS ARE NON-RETURNABLE.

Excluding defective products, aged products that are not the current part revision that we stock (Discontinued, obsolete or redesigned items) are not returnable after one year from date of purchase.

* Leather is sold by the full hide, but measured & priced by square foot
Quantity indicates square foot Hides average 48 s.f.

***30% RESTOCKING FEE PLUS ALL SHIPPING COSTS (INCLUDES COSTS OF SHIPPING TO CUSTOMER AND FOR RETURN OF HIDES)
NO CANCELLATION ON SPECIAL ORDERS - WARNING: IF YOU CUT THE HIDE, IT IS NOT RETURNABLE**

Payment by credit card or check constitutes signature and acceptance of contract. Venue for all legal matters in State of Georgia, Chatham County. *All Sales are Final unless Rich Leather management agrees to re-stock, in which case customer agrees to pay a 30% re-stocking fee plus all shipping costs (to customer and for return of hides). Notice: It is the customer's responsibility to verify selection and color before cutting hides. Therefore, we cannot guarantee exact color match. Leather is a natural product, signature marks, brands, barb wire scratches, scars may be encountered and should be expected. Because swatches are generally cut from the edges of hides, the texture can be heavier. Therefore, we cannot guarantee exact color and/or texture match of swatch and hides. There are no warranties, express or implied, except that the goods sold under the Contract shall be of the standard quality of Seller, and Buyer assumes all risks of liability and consequential damages resulting from the use of the goods, whether used singly or in combination with other goods, including additional costs of labor or installation.

NOTE: Our Prime Collection hides are discounted-- they are made from Brahma bulls which are larger, but shoulder humps are cut out leaving a hole in hide. Leather is a natural product, and like anything natural it is not always perfect. It is this natural imperfection that attracts the leather aficionado. Leather will have markings that are considered "nature's signatures" and this is what relates to the public that the product is genuine leather. Leather will have several different types of these natural markings:

- Insect Bites--A result of the cattle being bitten by various types of insects. These bites result in tiny scars.
- Scratches--A result of the cattle being scratched in one way or another, such as barbed wire.
- Neck Burns--Cattle like to scratch their necks on rails of fencing. This scratching can result in a neck burn if they scratch too hard or very often.
- Manure Burns--Cattle sometimes get manure on their hides. Since this is a very irritating substance, it can result in a burn on the hide if the cattle cannot remove the manure soon enough.
- Holes--Usually man-made and a result of removing the skin to gain access to the meat.
- Hide Measurement
Leather hides are measured at the tannery, before tanning, on a special machine and stretched out to the maximum elasticity to be measured, stamped and recorded. They are then trimmed to go through the final finishing machine which can create some shrinkage. Like a wooden 2x4 after final cutting measures 1 3/4 x 3 1/2, leather (after finishing) also measures less. This practice is universally accepted as industry standard.
