

TURBO-JET 427 V8

do not tease

'66 Chevrolet Impala SS Coupe—new standard safety package includes outside rearview mirror. Always check it before passing.

Poke the gas pedal of this new Chevrolet Turbo-Jet V8 and you get action. A full 427 cubic inches of it.

Its advanced design, with tilted valves and deep-breathing ports, sees to that.

Say you choose to cage it in that bucket-seated Impala SS above (it's

available in 18 other Chevrolets, too). You can order it with hydraulic lifters and an output of 390 hp. Or you can order a version with special-performance camshaft, solid lifters—and 425 hp.

Either way, you get higher rate front and rear springs, heavy-duty

shocks all around and 8.25 x 14 tires as part of the Turbo-Jet 427 package.

Sound like a lot of machine? As any road will show you, it's the most.
