Model description

1993 marked the 40th anniversary of the Chevrolet Corvette. GM celebrated this milestone with a "40th Anniversary" package for the car, featuring a Ruby Red Metallic paint job and Ruby Red interior. It also featured the "40th Anniversary" badge on the hood, rear deck, front fenders and embroidered into the headrest.

For the Corvette ZR-1, Chevy did some work on the LT-5 V8 engine, including new four-bolt main bearing caps, platinum-tipped spark plugs, and porting adjustments for the valvetrain and heads. A new electronic EGR valve improved emissions. All these changes resulted in a significant 30 horsepower bump, bringing the total up to 405hp.

For the rest of the lineup, the engine was actually made quieter through a series of changes, and 1993 would also be the first year you could get the Corvette with a proximity key fob. Quite common on cars today, this would unlock the car when you got near it with the fob.

*Please note: All prices shown here are based on various data sources, as detailed in [About Our Prices](#). For all Hagerty clients: The values shown do not imply coverage in this amount. In the event of a claim, the Guaranteed Value(s)® on your policy declarations page is the amount your vehicle(s) is covered for, even if the value displayed here is different. If you would like to discuss your policy, please call us at 877-922-3391.

21,590 Corvettes were built for the 1993 model year. The 40th Anniversary package was available on all models, and was selected 6,749 times. Rare colors for this year are Black Rose Metallic (935 ordered), Quasar Blue Metallic (683 ordered), Competition Yellow (517 ordered), and Dark Red Metallic (325 ordered). Just 488 coupes were selected both the 40th Anniversary package and the ZR-1 package, meaning they command among the highest prices for this vintage.

Wheel Base Shortest - Inches: 96.2

Vehicle's condition classification

#1. Concours

#1 vehicles are the best in the world. Imagine the best vehicle, in the right colors, driving onto the lawn at the finest concours. Perfectly clean, the vehicle has been groomed down to the tire treads. Painted and chromed surfaces are mirror-like. Dust and dirt are banned, and materials used are correct and superbly fitted.

#2. Excellent

#2 vehicles could win a local or regional show. They might even be former #1 vehicles that have been driven or have aged. Seasoned observers will have to look closely for flaws but will be able to find some. The paint, chrome, glass and finishes will all appear as excellent. The vehicle drives as a new vehicle of its era would.

#3. Good

#3 vehicles drive and run well but are not used for daily transportation. The casual passerby will not find any visual flaws, but these vehicles might have some incorrect parts. #3 vehicles could possess some, but not all, of the issues of a #4 vehicle, but they will be balanced by other factors such as fresh paint or a new, correct interior.

#4. Fair

#4 vehicles are daily drivers, with flaws visible to the naked eye. The chrome might have pitting, the windshield might be chipped and perhaps the body has a minor dent. Imperfect paintwork, split seams or a cracked dash might be present. No major parts are missing, but there might be non-stock additions. A #4 vehicle can also be a deteriorated restoration.
