Dear

The Callaway C12 Series of automobiles is comprised of a build of 20 cars. Your car is Number 010 of the series. It should be noted that your car, VIN 1G1YY32G4X5115763, is one of only two in Speedster configuration.

We look on the series of Callaway C12s as a high watermark for the automobiles of the period. As you know, they were designed and built in a collaborative effort, melding the talents of the Deutschman Design office in Montreal, and the manufacturing skills of our German partners at Callaway Competition GmbH and IVM Engineering in Germany.

We hope that your experience has been rewarding and we thank you for being such an enthusiastic owner.

My best personal regards,

Reeves Callaway, Founder
Callaway Cars Inc.
