BOOKING CAMPSITES

Q. I wish to attend for the first time – what are my options?

A. Please review our Public Sale tips document on our website

It can be overwhelming trying to decide what your best options are. We suggest answering a few questions first:

- What set up are you intending to bring? (tent / caravan / motorhome)?
- How big is your set up (including vehicle/s which must be parked within your site)? – *see campsite size chart*
- Do I require power? – *only some sites within the Orchard campground and Motorhome Park have access to powered sites. Due to the cost involved with bringing in temporary power, these are the most expensive sites*

Once you have answered these and reviewed this document to ascertain what is most suitable, please review the Campground Maps within the important links section of the [website](#) to understand the various sections within each campground (i.e. Chase A, Chase B etc). This will assist in allowing you to go straight to this section to check what sites are available when we go on sale.

Q. Which campsites are suitable for caravans / motorhomes?

A. All campgrounds are suitable for caravans however each campground has sites which vary in size and not all are flat! Please review the approximate campsite size details chart. We have also included some commentary on van

suitability in each campground profile. Suffice to say, sites in the Orchard, Enduro, the Chase, Max Cameron and Motorhome Park are predominantly flat with only a small percentage unsuitable for caravans.

Details on dump points and power offering is available in each campground profile.

Q. Which campgrounds are more suitable for families?
