# Double Ball Hull Valve

Breakthrough  
engineering for  
a better world

## Double Ball Hull Valve

- Shock qualified for extreme service conditions - strong mechanical properties
- High marine biofouling and corrosion resistance - due to choice of materials
- Easy inline maintenance - top entry access option available so no need to remove pipe flanges during repair saving time and money
- Redundancy safety back up - two trunnion mounted balls for enhanced safety
- Manual override option - quick acting operation in case of loss of actuator supply

### Technical features

**Pressure [bar]:**  
According to requirement

**Size Range:**  
Up to DN 330

**Materials:**

- Nickel Aluminium Bronze (NAB)
- Inconel
- Titanium
- Monel

**Temperature Range:**  
Max. working temperature: 225°C  
Min. working temperature: -20°C

### Systems Support

Submarines

Diesel Cooling

Hull Isolation

Hydrogen System

Sea Water

Sewage

Weapons Handling
