Garbage Disposal Unit

Breakthrough
engineering for
a better world

Garbage Disposal Unit

- Submarine stays submerged longer
 - storage chamber with a hatch to allow for garbage to be safely stored during longer patrols
- Highly shock resistant - shock resistant hull valve qualified for extreme service conditions
- Watertight up to full drive pressure
 - interlock safety feature to ensure watertight boundary is maintained at all times
- Various control mechanisms - operated via handwheel and can be actuated if required

Technical features

Pressure [bar]:
According to requirement

Size Range:
Up to DN 250

Materials:

- Nickel Aluminium Bronze (NAB)
- Inconel
- Titanium
- Monel
- Stainless Steel

Temperature Range:
Max. working temperature: 225°C
Min. working temperature: -20°C
