

# ACTIONABLE ASSESSMENT FOR LEARNING

## One Standards-Based System to Accelerate Reading Growth in Grades PreK–12

The Independent Reading Level Assessment® (IRLA) is the formative assessment you can trust to help every student learn to read skillfully and confidently. This tool provides real-time, actionable data about what students know and can do and identifies the sequence of skills they need to learn next to accelerate growth. The IRLA Toolkits help teachers deliver the right instruction to the right students at the right moment starting in Pre-K.

Paired with a high-quality core curriculum, the system ensures that every student has access to rigorous, grade-level instruction and that no student spends valuable instructional time on skills they have already mastered.
