

WORKLIGHTS

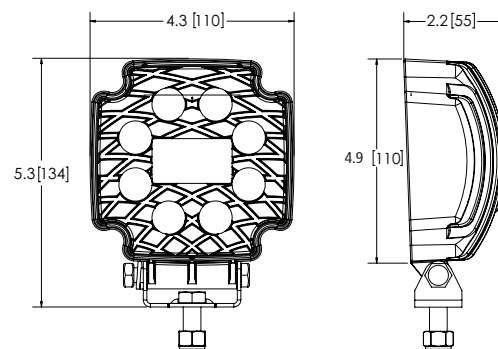

EQUINOX™ SERIES

Universal Worklight

ECCO's Equinox™ series LED worklights deliver exceptional brightness and durability, combining advanced LED technology with a sleek, modern design. Engineered for tough work environments, each model features a rugged aluminum heatsink housing, moisture-wicking vent, and UV-hardcoated polycarbonate lens for long-lasting performance. The EW2102 model also features Lo-Glo™, an illuminated ECCO logo that enhances visibility and serves as a built-in obstruction marker light. With versatile 12–24 VDC operation, the Equinox™ worklights are a bold, reliable solution for a wide range of applications.
