

ECCO CONNECT™

EC100

A-La-Cart Synchronized Vehicle Lighting Kit

ECCO Connect™ is a cutting-edge smart lighting system designed for fleets, work trucks, tow trucks, snowplows, and other vehicle applications. This system provides synchronized flash patterns and streamlined installation, enhancing safety and visibility. With fully customizable kits offering 360° coverage for rooftop, front, rear, and perimeter warning, ECCO Connect ensures effective and calming warning signals for motorists. The easy installation process includes preprogrammed kits with all necessary wiring and deutsch connectors, reducing install time, labor, and costs. Boost your vehicle's safety with ECCO Connect—the advanced lighting system engineered for maximum visibility and performance.
