

DIRECTIONAL LEDS

ED9040 SERIES

SAE Class I Hide-A-LEDs

The ED9040 Hide-A-LED Series provides the functionality of a warning light in a low profile design, allowing the vehicle's safe arrival to the scene. SAE Class I light output, synchronization capability, and the choice of 29 flash patterns for single-color and 69 flash patterns for dual-color allow the creation of an attention-getting, multi-color warning system with half the number of lights typically required. The ED9040 offers flexibility with multiple flush mounting applications on virtually any surface including bumpers and on the sides of any vehicle.

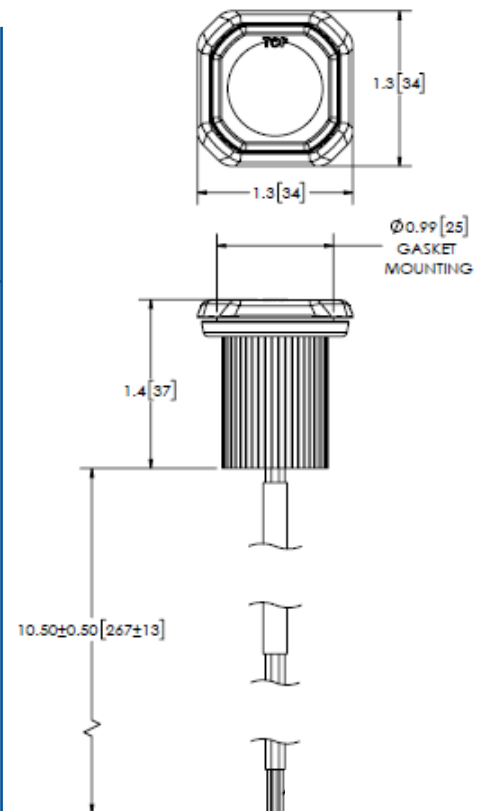

Models

PART NO.	COLOR	VDC	AMPS	MOUNT
ED9040X		12-24	1.2	Surface / Flush (1" Hole)
ED9040XX		12-24	0.6	Surface / Flush (1" Hole)

Replace X in part number with desired LED color: R = red, B = blue, A = amber, G = green, W = white

Features and Benefits

- Slim low-profile design with 6 powerful LEDs for a bright warning light
- All-in-module: all controls imbedded in the head light, avoiding a LED flash controller
- Optimized lens and optical, maximizing light beam in multiple single or dual colors variations
- Discreet flush mount, virtually applicable in any vehicle surface - insertable in a 1" hole, with 10" pigtail cable
- Steady burn override for worklight functionality
- Syncable with compatible ECCO directionals: ED3700, ED3701/ED3702, ED3706/ED3712, ED3766, and ED3777/ED3779 Series
- Temperature Range: -22°F to +122°F (-30°C to +50°C)

Packaging

- Sold as an individual lighthouse
- Each box contains one single ED9040 lighthouse
