EC4211B-K 9" LCD Color Mirror System

The EC4211B-K rearview camera system is an essential upgrade for commercial and working vehicles, designed to improve fleet efficiency and driver safety. Two mounting options allow it to clip over an existing rearview mirror or replace it entirely, transforming a simple mirror into a full-screen display that enhances rear visibility. A mirror-integrated 9-inch color LCD monitor is provided, delivering a high-resolution display that gives drivers a clearer view of their surroundings. The system is paired with a license plate-mounted 1080p camera equipped with a 170° wide-angle lens, ensuring dependable imaging in a wide field of view.
