

DIRECTIONAL LEDS

ED3779 TRIPLE STACK SERIES SAE Class I Multipurpose Light

The ED3779 Series wide-angled LED warning light provides the functionality of a warning light, allowing the vehicle's safe arrival to the scene, plus a worklight to create a safe, bright working environment at the scene all in a single package. This unique directional utilizes three rows of lighting to produce a bright, off-angle, 180-degree lighting spread. SAE Class I light output, synchronization capability and the choice of 29 flash patterns for single-color and 69 flash patterns for dual-color allows the creation of an attention-getting, dual-color warning system with half the number of lights typically required.

Models

PART NO.	COLORS	VDC	AMPS	MOUNT
ED3779X		12-24	1.7	Multi-Surface
ED3779XX		12-24	1.7	Multi-Surface

LED color: A = amber, B = blue, C = clear, G = green, R = red

Features and Benefits

- Steady burn override for worklight functionality
- Single-color models have 29 flash patterns
- Dual-color models have 69 flash patterns
- Syncable with ECCO's ED3766, ED3706, ED3712, ED3701/2, ED3700, ED3777 series lights
- Durable IP67 rated for dust and water resistance
- Offers flexibility with multiple surface mounting applications
- Temperature Range: -22°F to +122°F (-30°C to +50°C)
