

ELECTRIC VEHICLE ALERT SYSTEM

Experience the sound of safety with the new Electric Vehicle Alert System (EVAS) from ECCO. EVAS emits an audible warning for perimeter safety. ECCO's expansive catalog of tones provides compliant pedestrian protection.

Models

- EVS1000 Master & Slave Kit
- EVS1000-M Master
- EVS1000-S Slave

Features and Benefits

- Provides audible perimeter safety for your vehicle
- 9-Band frequency profile
- Audio engineering capability
- Diverse tone catalog available
- Smooth frequency ramping
- Vehicle action tones available

Certifications

- USA : FVMSS 141 : 49 CFR 571.14
- EU : UNECE Reg No. 138
- China : GB/T - 2018
- SAE J994 reversing tone
- Additional vehicle alert tones

Specifications

- 12-24 and 12-48V models available
- Multiple mounting options
- Unlimited Vehicle Harness integration
- Automotive grade EMI/EMC and Voltage transients protection
- J1939 CAN compliant
- LIN Protocol compliant
- IP69K+
