DIRECTIONAL LEDS

ED3790 ULTRAFLEX™ SERIES

Dual-Color Flexible LED Light

ECCO's ED3790 UltraFlex™ Series is a flexible directional warning light that can be mounted on flat or curved surfaces up to 120° (ED3794) or 72° (ED3793) with self-adhesive, very high bond tape. Its dual-color LEDs provide exceptional output with combinations of amber, white, blue and red colors available in 3" and 4" lengths. The lighthead is protected in a clear, silicone housing that can flex while resisting yellowing and warping making it ideal for any work truck, snowplow, utility vehicle, or any other application. A two-bolt bezel is also included for easy installation on flat surfaces. Patent pending.

Models

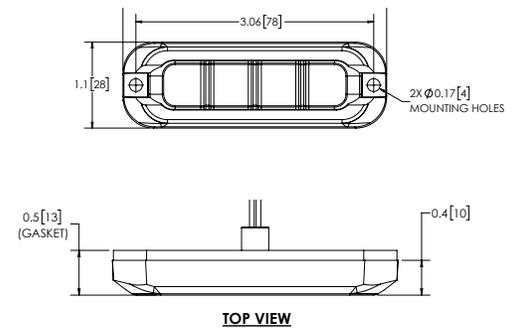

PART NO.	LED COLOR	AMPS
ED3793XX		0.4
ED3794XX		0.8

Replace "X" in part number with desired color: A = amber, B = blue, R = red, W = white

Design Features

- 12-24 VDC
- 69 flash patterns including steady burn
- Flexible housing adapts to curved surfaces up to 120° (product cannot be bent in forward position)
