

DIRECTIONAL LEDS

3715 Series SAE Class I Surface Mount

This compact and versatile LED directional light is ideal for applications requiring high intensity output, low current draw and maintenance-free operation. These premium LED heads feature a clear polycarbonate lens with LEDs that illuminate in the color of your choice. Warning capability can be customized by selecting from nine flash patterns (via a trigger wire) and synchronizing multiple heads simultaneously or alternately. With epoxy-sealed electronics, these light heads are one of the most rugged and flexible LED products around. And, they're covered by a full 5-year warranty.

Models

PART NO.	COLOR	VOLTAGE	AMPS	MOUNT
3715A	Amber	12	0.3	Surface
3715B	Blue	12	0.3	Surface
3715C	Clear	12	0.3	Surface
3715G	Green	12	0.3	Surface
3715R	Red	12	0.3	Surface

Features and Benefits

- Nine flash patterns
- Multiple heads are synchronizable (simultaneous or alternating operation)
- Epoxy-encapsulated electronics provide environmental protection against dust, moisture and vibration
- Four high-intensity LEDs combine with TIR optics to provide high intensity directional warning
- Units are colorless when not illuminated
- Temperature Range: -22°F to +122°F (-30°C to +50°C)

Flash Patterns (9)

- Steady Burn
- Double
- Quad
- Quint Hold
- Fast Double
- Double Alternate
- Quad Alternate
- Quint Hold Alternate
- Fast Double Alternate
