

WORKLIGHTS

E92006W-BT

Square LED Bluetooth Worklight

ECCO's E92006W-BT is a standout worklight, designed to enhance the functionality and safety of commercial vehicles with its advanced Bluetooth connectivity. The worklight features a robust square flood beam with 9 LEDs, operating on a 12-24 VDC system, and is housed in a durable polycarbonate lens with an aluminum heatsink and a steel mounting bracket for long-lasting performance. Whether mounted behind a tow truck cab, on a work truck's headache rack, or at the rear of a construction vehicle, the E92006W-BT ensures maximum visibility and safety.
