

DIRECTIONAL LEDS

Hide-Away Systems Remote Strobes

This feature-packed 9600 Series power supply is designed and built to withstand the toughest applications and offers easy Plug-N-Play installation. The 15 flash patterns include Quad, Quint, Mega, Double, Single, Warble, and Cycle. Twin diagnostic LEDs make it simple to locate system faults in the field as the output LED indicator lights when any strobe head fires and blinks in exact time with the flash pattern. Reinforced nylon housing and reverse-polarity protection. Available individually or in systems.

Models

PART NO.	VDC	WATTS	MODE	FLASH PATTERNS
9660	12-24	60	Hi/Lo	15

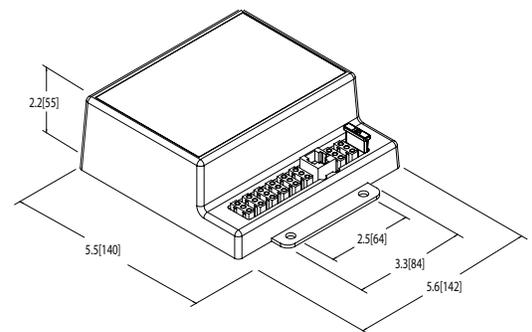

Hide-Away Systems

PART NO.	COLOR	CABLE	VDC	9660 PSU
9660-1*	Four Clear	Four 15'	12-24	1
9660-2*	Four Clear	Two 15' & Two 20'	12-24	1

*comes with four heads and expandable to six

Features and Benefits

- Reinforced nylon housing
- 60 watt power system
- 15 flash patterns
- Switchable hi/lo intensity
- Short circuit protection, output power regulation and flashtube fault detection
- Temperature Range: -22°F to +122°F (-30°C to +50°C)
- Warranty: Power Supply = 2 years / Flashtube = 6 months

Replacement Parts

- Strobe light heads:
9007X Hide-away (Replace 'X' with A=Amber,, C=Clear)

- Cables:
9915AMP 15'
9930AMP 30'

- Accessories:
A9660SW Control Switch
