AI METHODS + SOCIAL SCIENCES: NEURAL NETS

WEDNESDAY, NOVEMBER 1, 2023 • 12:30–1:30PM
HARPER MEMORIAL LIBRARY ROOM 140

Join SSRC for a new series of discussions featuring UChicago researchers who are applying specific AI methods to social science research in novel ways. This first event will explore neural nets: how they make decisions, how they are being used for estimation and inference, and how image recognition deep nets can be used for behavioral research.

Presenters:

SANJOG MISRA | Chicago Booth
WILMA BAINBRIDGE | Psychology
HANK HOFFMAN | Computer Science

Co-sponsored by the
Center for Applied Artificial
Intelligence, Chicago Booth.
