A PERSONAL CERTIFICATE OF CONSTRUCTION BRINGS YOU TO THE FOREFRONT OF PROFESSIONALS!

Why apply for a personal certificate of construction?

- Waterproofing is a job for a professional. A personal certificate of construction is a good way to demonstrate your competence.
- This way, purchasers and construction employers can be sure of your expertise and know that you work in accordance with good building practices.
- As a construction professional, you maintain and develop your expertise with continuing education. You also commit to work in accordance with guidelines and good building practices.
- As a certified professional, you will have access to a certification label and card for marketing purposes.
