

P&G PRO LINE DIGESTANT DEODORIZER

A natural enzymatic cleaner specifically engineered to break down all types of organic soils and grease build-up from drain lines. This unique formula digests and removes the source of organic waste. Not a temporary solution like some other drain cleaning products that only partially open drain lines. Contains non-pathogenic bacteria that grow, multiply and act as enzyme generators forming a digesting film to eliminate odors at the source and helps keep your drain lines running freely.

P&G Proline Digestant Deodorizer is available in 32 oz bottles, 12 per case:

TASK AREA

- Drain maintenance
