

# Manage your business not your WiFi.

## SmartWiFi

Let SmartWiFi do the heavy lifting for your wireless Internet, so you can focus on growing your business.

**SmartWiFi** is a robust, enterprise-grade, cloud-based, wireless Internet solution that we have built with small and medium businesses in mind. Providing you separate WiFi networks for employees and guests, all while accessing device usage patterns to gain valuable customer insights.

Think of us as a complement to your IT department. Our highly trained team is with you every step of the way.

### Provide an optimal customer WiFi experience

- Three dedicated WiFi networks - one for your business, your guests and a separate Shaw Go WiFi hotspot network. Keeping your speed fast, your data separate and your business running smoothly.
- Set and manage the seamless log-on experience for your guests.

### Understand your customer through SmartWiFi analytics

- Optimize your wireless network and business strategies based on customer usage patterns.
- Serve your customers better by understanding when and how long they're on your network.

### Easy to use business class WiFi

- Exceptional WiFi coverage reaching every corner of your business.
- Put your business on the map – literally. SmartWiFi allows your business to become a Shaw Go WiFi hotspot, with over 100,000 hotspots and growing.

### Cloud management allows you to focus on your business

- Automatic monitoring ensures your wireless network stays at top performance.
- Receive seamless over-the-web feature upgrades and updates.
