

Reliable internet to keep your business moving.

Business Internet

From reliable connection to incredible speed, Business Internet can handle all your network and data needs.

Key Benefits

Stay cool, calm and collected

Rest easy knowing you can email, transfer and download your important business files in the blink of an eye.

Stretch your expectations with a flexible plan that suits your business.

Unlimited data? You got it

It's all good if you go a bit overboard. Complete your online tasks without the worry of overages fees, included in all business internet plans.

A static IP address means speed and reliability

Run an online storefront, equip your office with security cameras or manage a private network.

We've got your back 24/7

We've got you. Expert technical support available 24/7/365, based in Canada.

Go ahead. Find a plan that fits your business.

¹ Additional static IPs available for an additional cost.

² Where Internet connectivity is available.

³ Connection speeds may vary based on modem equipment, client device capability, building wiring, internet traffic and environmental conditions. "Up to" speeds are based on optimal conditions. Maximum download speed for a single hardwired device connection is 940 Mbps for the CODA-4582 modem or up to 2 Gbps for the CODA-5810 modem. Additional wired or wireless device connections are required to reach maximum download speeds of up to 1Gbps or 1.5Gbps (i.e. 2 or 3 x devices concurrently running at 500 Mbps each). Upload speeds vary by region depending on network infrastructure in your area. Business Internet 300, 750, Gig, Gig 1.5 and Gig 2.0 upload speeds will be up to 125 Mbps, 150 Mbps, 150 Mbps, or 200 Mbps. Please call for more details at 1-877-742-9249.

⁴ LTE Backup is only available in locations with sufficient cellular coverage. Cellular bandwidth and network connectivity is not 100% guaranteed.
