

# Keep your business up and running.

## Internet & LTE Backup Bundle

Bundle Advantage WiFi or Business Internet with LTE Backup and enjoy fast, reliable Internet plus the reassurance of uninterrupted day-to-day business.

---

### Key Benefits

**Powerful connectivity that moves as fast as your business<sup>1</sup>**

Get fast, reliable and secure internet with unlimited data with Business Internet.

Need more than one network? Upgrade to Advantage WiFi and get three separate networks with wall-to-wall coverage and customers analytics.

**Protect your business from downtime<sup>3</sup>**

A reliable backup Internet connection means your business remains operational in the rare event of an Internet outage.

**Automatic failover keeps your business running**

Automatic failover keeps your essential business applications online including point of sales systems, back office connections, email and cloud-based applications.

When your primary network comes back online, the backup connection will seamlessly reconnect to your main network.

## Go ahead. Find a plan that fits your business.

1 Connection speeds may vary based on modem equipment, client device capability, building wiring, internet traffic and environmental conditions. "Up to" speeds are based on optimal conditions. Maximum download speed for a single hardwired device connection is 940 Mbps for the CODA-4582 modem or up to 2 Gbps for the CODA-5810 modem. Additional wired or wireless device connections are required to reach maximum download speeds of up to 1Gbps or 1.5Gbps (i.e. 2 or 3 x devices concurrently running at 500 Mbps each). Upload speeds vary by region depending on network infrastructure in your area. Business Internet or Advantage WiFi 300, 750, Gig, Gig 1.5 and Gig 2.0 upload speeds will be up to 125 Mbps, 150 Mbps, or 200 Mbps.

2 Additional static IPs available for an additional cost.

3 LTE Backup is only available in locations with sufficient cellular coverage. Cellular bandwidth and network connectivity is not 100% guaranteed. Equipment install required and is subject to an installation fee of \$74.95 per customer location.
