

All-in-one VPN with effortless security.

Securely connect to the head office from anywhere¹ with Smart Remote Office.

Almost 40% of Canadian Employees now work from home.²

- Ensuring remote employees have secure access to your network from anywhere¹ is more important than ever.

Enjoy peace of mind while working from home or on the road.

- Whether they're working from home, or on the road, Smart Remote Office gives remote workers fast, reliable access to VPN – It's like they're in the office, but not. And a secure firewall keeps corporate data separate from recreational home data.

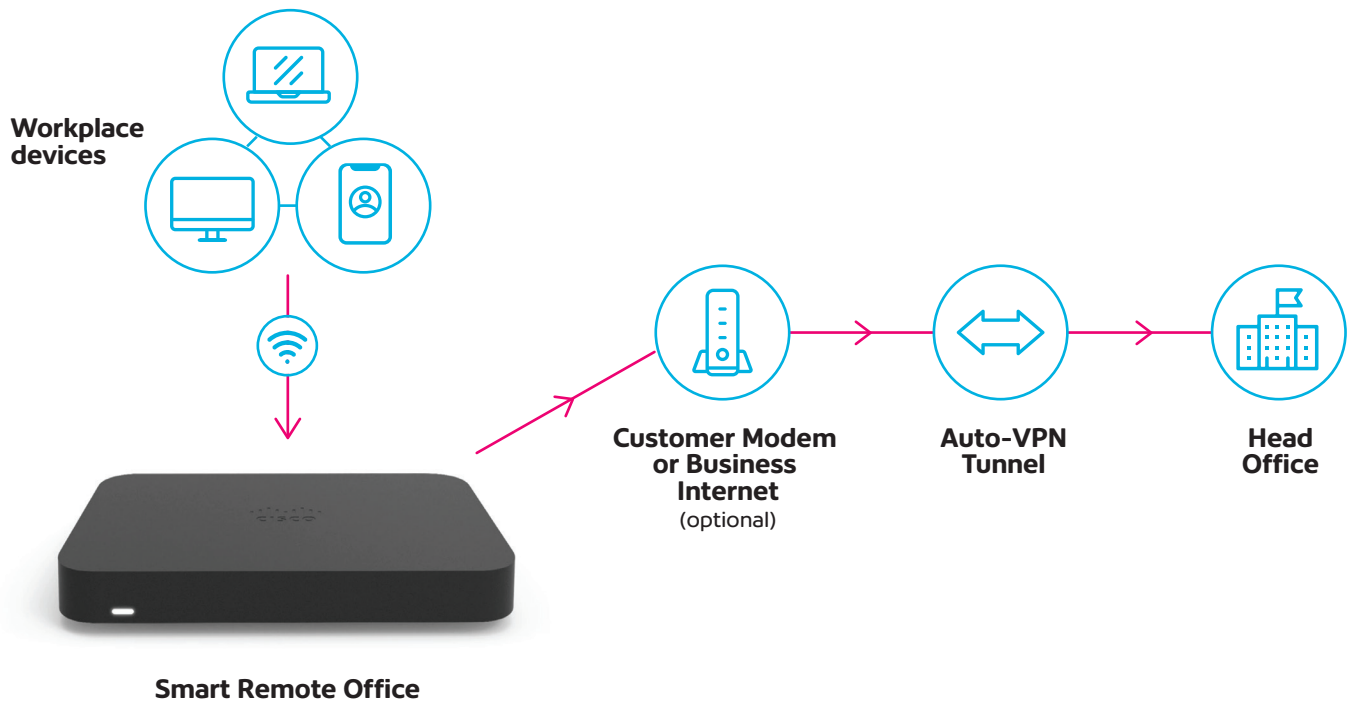

Network management at your fingertips.

- Remote worker networks and traffic usage is readily available through the online portal, making it easy to identify and troubleshoot remotely. Plus, you'll be able to prioritize applications and traffic, ensuring your remote workers stay productive.

Mighty and small, and easy to use.

- The Smart Remote Office hardware is small, lightweight and can be brought anywhere there's an internet connection – With zero-touch provisioning and self-connect, all you have to do is plug it in. It's that easy!
