

## BUSINESS PRO BUNDLES

# ALL-IN-ONE SOLUTIONS TO KEEP YOUR BUSINESS RUNNING.

Get fast, reliable Internet, advanced cyber threat protection and a LTE backup connection. Choose between SmartWiFi and Business Internet, and add SmartTarget to transform your WiFi into a powerful marketing tool.

## POWERFUL CONNECTIVITY THAT MOVES AS FAST AS YOUR BUSINESS<sup>1</sup>

- Get fast, reliable and secure internet with unlimited data with Business Internet.
- Need more than one network? Upgrade to SmartWiFi and get three separate networks with wall to wall coverage and customers analytics.
- Add SmartTarget<sup>2</sup> and leverage your WiFi network to launch hyper-targeted marketing campaigns.

## SAFEGUARD YOUR NETWORK AND DEVICES FROM CYBER THREATS

- A leading AI-driven threat detection platform shields your network data from malware, phishing, ransomware and bots hidden in malicious websites.
- Protect your devices with premium safe browsing and anti-virus software that gives you protection on any 10 devices.
- A cloud managed solution with no hardware to deploy and automatic software updates provides peace of mind for your business.

## PROTECT YOUR BUSINESS FROM DOWNTIME<sup>5</sup>

- A reliable backup Internet connection means your business remains operational in the rare event of an Internet outage.
- Automatic failover keeps your essential business applications online including point of sales systems, back office connections, email and cloud-based applications.
- When your primary network comes back online, the backup connection will seamlessly reconnect to your main network. It's that easy.

## GO AHEAD. FIND A PLAN THAT FITS YOUR BUSINESS

1 Connection speeds may vary based on modem equipment, client device capability, building wiring, internet traffic and environmental conditions. "Up to" speeds are based on optimal conditions. Maximum download speed for a single hardwired device connection is 940 Mbps. Additional wired or wireless device connections are required to reach maximum download speeds of up to 1 Gbps or 1.5 Gbps (i.e. 2 or 3 x devices concurrently running at 500 Mbps each). Upload speeds vary by region depending on network infrastructure in your area. SmartWiFi and Business Internet 300, 750, Gig and Gig 1.5 upload speeds will be either up to 125 Mbps or up to 150 Mbps.

2 Businesses must be existing or new SmartWiFi customers in order to add SmartTarget.

3 Additional static IPs available for an additional cost.

4 Additional splash page customization available with SmartTarget.

5 LTE Backup is only available in locations with sufficient cellular coverage. Cellular bandwidth and network connectivity is not 100% guaranteed. Equipment install required and is subject to an installation fee of \$74.95 per customer location.
